PROFESSIONAL SUMMARY

ESG professional with 4+ years of experience across ESG rating agencies, data analytics firms, and ESG fintech platforms. Experienced in the complete ESG data lifecycle — research, ratings, data quality assurance, vendor data integrity, regulatory reporting, and product development. Strong working knowledge of SFDR, PAI reporting, TCFD, CDP and GRI frameworks, with hands-on experience managing vendor data from MSCI, Morningstar Sustainalytics, and ISS. Demonstrated ability to lead teams, manage cross-functional stakeholders, gather and translate client requirements into product features, and drive end-to-end project delivery.

CORE SKILLS

PROFESSIONAL EXPERIENCE

ESG Product Analyst

April 2025 – June 2026

Equity Data Science (EDS), Mumbai, India

- Managed end-to-end SFDR regulatory reporting, including accurate generation and timely delivery of PAI Tables 1, 2 and 3 from vendor data sources, aligned to institutional client requirements.
- Served as the primary liaison for vendor relationships with MSCI, Sustainalytics and ISS — resolved data discrepancies, validated calculations and maintained optimised data feeds across client portfolios.
- Documented detailed business logic and process flows, enabling the engineering team to automate backend updates for delayed vendor metric revisions and reducing manual effort.
- Designed a client-facing alert system that flags material changes in reporting metrics with drill-down to specific security or issuer level, improving client decision-making speed and accuracy.
- Led UAT and UI/UX testing on the Stably analytics platform — executed test scripts, performed manual calculation checks, managed bug triage and validated all dashboard metrics prior to release.
- Gathered and documented feature requirements from client meetings, authored Jira tickets and user stories, and actively contributed to shaping the product roadmap.
- Acted as primary Level-2 escalation point for platform issues and contributed to Help Centre documentation, onboarding guides and internal knowledge resources.

QA Analyst — Promoted from ESG Analyst

April 2024 – March 2025

SG Analytics Pvt. Ltd., India

- Promoted internally to QA lead role — audited and validated analyst-submitted ESG research data used to train and run a proprietary AI-powered research tool.
- Ensured only accurate, structured and verified data entered the machine-learning pipeline, maintaining the quality of AI-generated outputs delivered to institutional clients.
- Trained and improved the AI model by conducting structured baseline ESG research, reviewing autonomous outputs and correcting learning gaps using multi-company datasets.
- Mentored junior ESG analysts on research processes, data quality standards and reporting frameworks, supporting consistent team output.
- Compiled verified AI outputs and manual ESG research into polished reports and presentations for institutional clients.

Research Associate — ESG Ratings

February 2022 – October 2023

Morningstar Sustainalytics, India

- Researched and produced ESG ratings for 1,200+ global companies across diverse sectors, drawing on annual reports, CSR and sustainability disclosures and regulatory filings.
- Assessed Environmental, Social and Governance performance across carbon reduction, biodiversity, water management, labour standards, employee relations and regulatory compliance.
- Reviewed TCFD and CDP filings to evaluate climate risk, physical risks and corporate transition planning of the ratings process.
- Maintained data integrity by standardising findings within a proprietary research platform and collaborating with senior analysts to ensure rating consistency.

ESG & Finance Internship

Collabgenics | Finoability | Anand Rathni Shares & Stock Brokers, India

- Supported ESG data research, corporate sustainability reporting and financial analysis across multiple organisations.
- Built foundational skills in financial markets, investment research and stock analysis, establishing a strong base in data-driven decision-making.

EDUCATION

Master of Management Studies — Finance

2020 – 2022

Lala Lajpatrai Institute of Management, Mumbai

Bachelor of Commerce (General)

2017 – 2020

BYK College of Commerce
